Tectonic Plates A cool software program that you can use to design cool things and make cool images. They are free for personal use. I will recommend this program to you if you are into design and cutting edge. Is there a way to get AVG or something similar to completely remove it from my system? I've been fighting with it for months now. I would love to get rid of this nasty program and get back to my normal system. I have been trying to go to the Xp Recovery Download and it says that an administrative service is started and I'm not allowed to shut it down. I would like to know how to stop it so I can get rid of the annoying program and get to the real program. I am using the Dell toshiba 3.0.788 as my computer. I have read around and have heard that if you are using Xp Repair tool you may have a problem as the tool might not remove this program correctly but now I think I am going back to the Dell and have a new computer with a new version of Xp. It's really weird but I just don't know what to do anymore. Please let me know if there is anything I can do to get rid of this program once and for all. I'm really tired of having the annoying program show up with the Windows XP logo everytime I restart my computer. I am new to computer. I had no problems until I restarted my computer last night. It restarted with a weird sound. I did not hear the Windows system noise. It was something so different. I think it was a new black screen appearing in black and then when I turned back on my computer it says that it was a Windows XP startup repair. It had failed to fix a problem. I have the error code of 0x0000007B on the screen. I am really surprised and do not know what to do. I would like to know what will happen to my computer if I do not fix it? Please let me know how to do that. Thank you so much for your time. I really appreciate it. Tradewind Software Windows 7 Prof. I am so tired of this error code. I feel like my computer will not work properly if I 3da54e8ca3
